Disclaimer

No One Can Currently Certify to CMMC.

- Version 1.02 of the framework – processes and practices – has been released.
- Exact Certification requirements and assessment guidance have not been released.
- DoD is considering taking legal action against companies currently claiming to be able to help companies get certified.

Poll Slide

Brief CMMC Overview

5

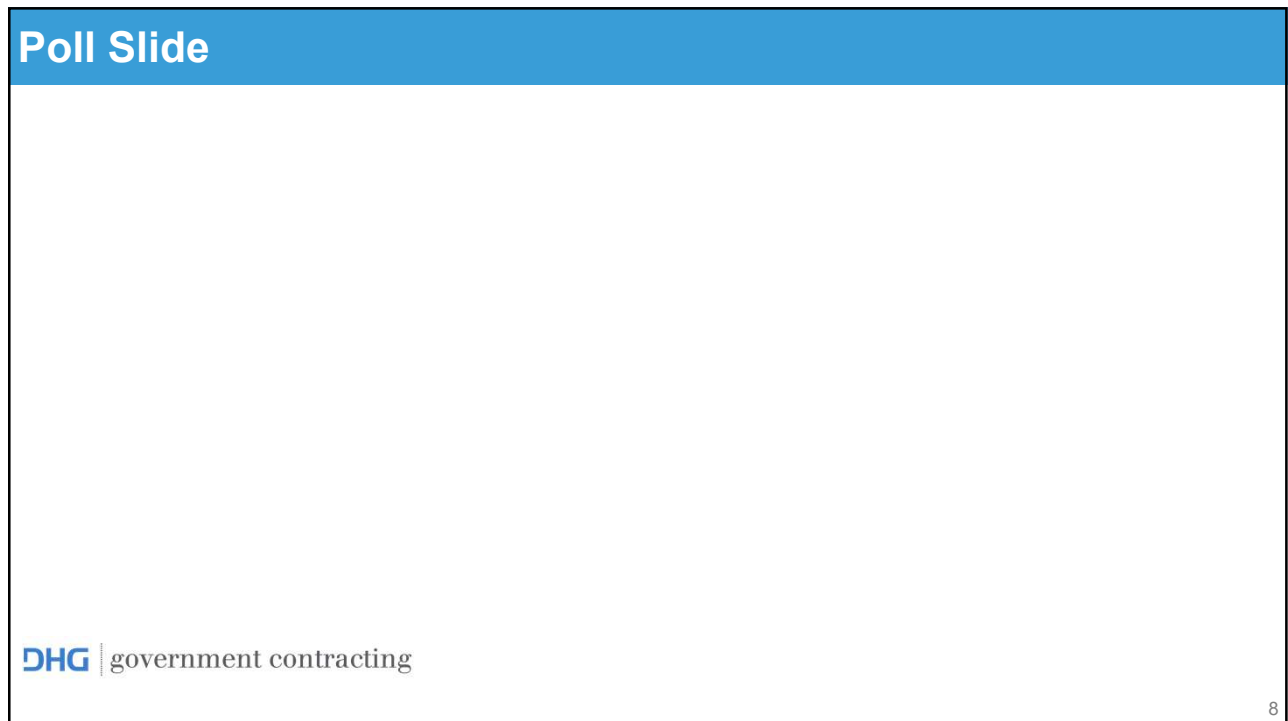

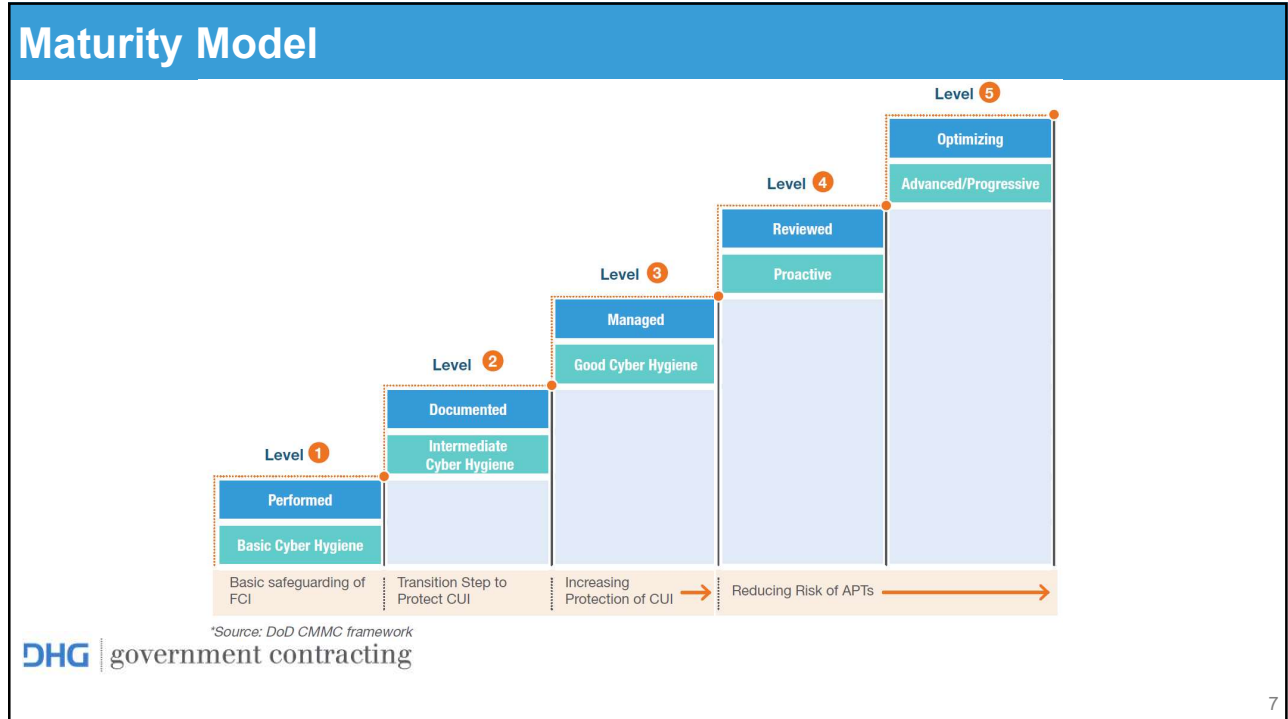

CMMC Framework Overview

- **Maturity Model**
 - + Five maturity levels (based upon CMMI) to distinguish maturity of cybersecurity controls.
- **Certification**
 - + A third-party assessor (called C3PAOs) will be required to perform the certification assessment.
 - + Certification model expected to be similar to FedRAMP.
- **Allowable Cost**
 - + DoD has indicated that the cost of certification and security implementation can be included in contract bids.
