

WHY CHOOSE DHG?

We integrate our IT Advisory and Assurance practices with our approved HITRUST Common Security Framework (CSF) assessors to offer a key differentiator in the marketplace and cost-effective outcomes for our clients.

managing healthcare risk with a common security framework

Covered entities and business associates have a daunting task: share patient information seamlessly to deliver outstanding care, while complying with multiple regulatory frameworks and ensuring sensitive data is secure and confidential. The HITRUST CSF provides a set of controls to protect sensitive data that spans state, federal and industry regulations and frameworks.

WHAT WE DO

As healthcare providers and business associates assess compliance with HIPAA, HITECH and other regulatory requirements, HITRUST offers an alternative to assess and manage risk. HITRUST is a valuable tool for healthcare organizations of all sizes and complexities. The HITRUST CSF provides organizations with the needed structure, detail and clarity relating to security and privacy compliance requirements tailored to the healthcare industry. Organizations that desire to evaluate risk, efficiently report on compliance and monitor efforts on an ongoing basis should consider the HITRUST CSF as an option.

EVALUATE RISKS

EFFICIENTLY REPORT ON COMPLIANCE

MONITOR EFFORTS ON AN ONGOING BASIS

DHG, a top 20 accounting and advisory firm, offers comprehensive compliance and risk management services. By leveraging our methodologies and cost-effective approaches, DHG's HITRUST services offer a key differentiator in the marketplace to resolve complex risk and compliance issues for our clients.
